See website for details of all ESPA benefits. For all internships over 6 months, additional benefits will be paid. Details available at interview.

Role

This is a fantastic opportunity for an AR (augmented reality) developer to gain practical experience working for an innovative company specialising in user experience and interaction across a range of exciting applications. The company is looking to develop an AR CMS (content management system) platform, so this role is ideal for a creative thinker who has the flexibility to develop new ideas and solutions. As an important member of the team you will be expected to have full input in all aspects of creation, making this a great addition to your CV and career aspirations.

Tasks

- Work with designers, product managers and other engineers to imagine, build and launch a CMS platform for AR
- Help evaluate the business case for AR solutions
- Establish informed opinions on the role of AR in business
- Assist in the presentation of sales presentations to potential clients
- Propose new product concepts

Desired Skills

- Unity 3D Development experience
- Passion for AR technologies
- Broad understanding of emerging AR products and underlying technologies
- Strong understanding of technical skills needed to create immersive proof of concept projects
- Ability to learn new tools, skills and the ability to cope with changing and evolving priorities
- Experience with hybrid mobile development / Wikitude advantageous
- Good communicator with a creative attitude
- Able to present and write confidently, for both technical and non-technical audiences.

The Host Company

This innovative host is at the forefront of the application of AR and VR technology to international tourism, entertainment and sports to enhance visitor experience, engage fans and track performance. In collaboration with the European golf tour they have developed a real-time golf tracking statistics platform using innovative technology and image processing algorithms to record performance and scores and allow the user to help improve their standard of play. With new exciting projects on the horizon, working with this host will be an amazing experience.
